

Software Updates

Software updates can be downloaded from <https://videoray.exavault.com/>

Username: quarterdeck

Password: quarterdeck

In the instructions below, replace * with the actual file name(s).

1. Log in to the download site
2. Navigate to the EOD_WORKSPACE folder
3. Download the latest *.run and desired gss_configs-*.tar.gz file(s) to the Downloads folder
4. Open a Terminal Window and enter the following commands:
 - a. `rm gss_configs` (*If this reports an error, use: `rm -r gss_configs`*)
 - b. `cd Downloads`
 - c. `chmod +x *.run`
 - d. `sudo *.run oculus` (*or use the desired sonar*)
 - e. When prompted enter the password: videoray
 - f. `cd ~`
 - g. `rm -r gss_configs`
 - h. `rm -r gss_configs-*` (*repeat for each desired config file*)
 - i. `tar -xzf Downloads/gss_configs-*.tar.gz` (*repeat for each desired config file*)
5. Start the workspace using the desktop icon
6. Exit the workspace
7. In the Terminal Window and enter the following commands
 - a. `cd .config/greensea_systems`
 - b. `rm *.ini`

(*Do not delete any other files, specifically gss.key*)
8. Close the Terminal Windows
